INDEX TO VOLUME IV

Anthropometric data correlated with total lung volume, 113

ARNOTT, W. M., *see* WHITFIELD, A. G. W., WATERHOUSE, J. A. H., and ARNOTT, W. M.

Birmingham, hospitals for chronic sick; age and sex distribution of patients, 63

——, observations on all births in, in 1947, 221

——, Western Road Infirmary, care of chronic sick at, 137

Births, human, sex ratio of, related to maternal age, 75

—— in Birmingham in 1947, 221

BOOK REVIEWS:

GOOD, I. J.: Probability and the weighing of evidence, 1950, 170

HALLIDAY, J. L.: Mr. Carlyle my patient. A psychosomatic biography, 1949, 241

INDEX TO SUBJECTS OF ARTICLES ABSTRACTED

A-B-O- blood groups, conjugal incompatibility of, 186
*A blood-group factor, iso-immunization by, 59
Abortion, induced, psychiatric indications for, 244
——, radical treatment of, 189
——, therapeutic, 245
Abortive ova, potentially, recovered from fertile women prior to first missed menstrual period, 105
Accident service, regional, clinical organization of, 242
Acclimatization to heat and cold, 180
Adaptive reaction to stress, 249
Adolescents, vitamin C deficiency in, 182
Adoption, effect of, on fertility and other reproductive functions, 188
Afforestation, protective, and radiation temperatures, 259
Alcohol, chronic consumption of, effect of, on development of children, 251
——, effect of, on driving ability, 251
*—— problem, 18th-century views of, 59
Alcoholism, thiopental U.S.P. (" Pentothal ") treatment of, 250
Allergy and emotions, 103
Altitudes, high, pulse rate at, 180
Amenorrhoea and sterility associated with endometrial hyperplasia, value of *x*-ray therapy in, 188
——, functional, psychomatic factors in, 185
——, post-war, significance of amino-acids in origin and treatment of, 105
American revolutionary army, role of disease in 70,000 casualties in, 101
Amino-acids, significance of, in origin and treatment of post-war amenorrhoea, 105
Anaemia, sickle cell, inheritance of, 54
Anencephaly, 192
Anhidrotic ectodermal dysplasia, hereditary, 186
Anopheles eradication in Cyprus, 110
Anopheles gambiae, DDT and gammexane as residual insecticides against, in African houses, 110
Antabuse, initial clinical experience with, 110
Antibodies, inherited, effect of, on active immunization of infants, 187
Antihistaminic drugs, comparative toxicity and side effects of, 111
Anxiety neurosis, 247
Appendicitis, acute, decrease in mortality from, factors contributing to, 178
——, ——, in rural community, 178
Aqueduct of Sylvius, hereditary stenosis of, as cause of congenital hydrocephalus, 55
Arachnodactyly, 193
Arctic, poliomyelitis in, 100
Asphyxia and shock in newborn, 107
Asthenia, neurocirculatory, 247
Athens, plague of, 176
Atherosclerosis, genetics of, 54
Aural rehabilitation of nerve-deaf patients, 180
Australia, diabetic mortality in, 178
——, malaria in, 256
——, South, epidemiology of 1947-8 epidemic of poliomyelitis in, 101
*B blood-group factor, iso-immunization by, 59
Bantu tribe, genetics of sickle-cell trait in, 54
Bataan province, beri-beri mortality in, 181
Batavia, tuberculosis in, 58
Bavaria, increased incidence of bronchial carcinoma in, 252
B.C.G. vaccination, immunologic aspects of, 254
*Belgian Congo, malaria control in, 262
Beri-beri mortality in Bataan Province, influence of artificially enriched rice on, 181
Birth-weight, relation of, to physical development in childhood, 56
——, under-average, children with, physical and mental development of, 194
*Blood-group factors A and B in man, iso-immunization by, 59
Blood sugar values in premature infants, 195
Breast-feeding, incidence of, after second world war, 191
—— ——, the time for supplementing, 245
British Guiana, Bancroftian filariasis in, 257, 258
California, flea problem in, 183
Calories and proteins, world consumption of, changes in, 259
Cancer of the tongue, 56
Carcinoma, bronchial, increased incidence of, in Bavaria, 252
——, familial, of duodenum, in adolescence, 111
—— of cervix, 178
——, uterine, statistical study of, 57
Carotenoids, total, in normal subjects, 183
Cervix, carcinoma of, 178
Chickenpox, ventilation in spread of, 256
Children, alcohol, chronic consumption of, effects on, 251
—— congenital heart disease in, physical and mental development of, 108
——, dental caries, wartime reduction of, in, 182
——, diabetes mellitus in, 108

Children, nutritional dystrophy in, in Madras, 181
——, nutrition and infection in, 59
——, sinusitis in, 194
——, vitamin C deficiency in, 182
——, war-damaged, clinical study of, at Hospital for Sick Children, London, 104
——, weight at birth under average, physical and mental development of, 194
China, ancient, pharmacology in, 261
Coccidioidomycosis, 259
Cold, acclimatization to, 180
——, common, puzzle of, 175
*Colitis, chronic ulcerative, life situations, emotions and, 262
Colon, human, observations of, through transverse colostomy, 250
—— ——, reaction of, to emotional states, 250
Colonic function, alterations in, under stress, 249
Concentration camps, diseases of malnutrition in, 58
Consanguinity, parental, in diabetes mellitus, 54
Contagious diseases, common, effect of specific therapy on, 51
Contraception among 2,000 private obstetric patients, 55
Cooling of organism by local application of cold surfaces, 250
Cornwall, poliomyelitis in, in 1949, 177
Cranial injuries in prehistoric man, 261
Cyprus, anopheles eradication in, 110
Czechoslovakia, perinatal deaths in, 106
DDT and gammexane as residual insecticides against *Anopheles gambiae* in African houses, 110
——, residual, and phlebotomus, in Greece and Italy, 53
Deafness, nerve, uselessness of therapy in, 180
Denmark, progressive infantile muscular atrophy in, 193
Dental caries, dietary control of, 59
—— ——, effect of fluorides on, in young adults, 259
—— ——, wartime reduction of, in European children, 182
Dermatoses, itching, effect of environment on, 259
Diabetes, infantile and juvenile, 253
—— mellitus in children, 108
—— —— in the U.S. Army in World War II, 109
—— ——, incidence of parental consanguinity in, 54
Diabetic mortality in Australia, 178
Diarrhoea, functional, mechanism of, 249
Diatheses, familial haemorrhagic, 187
Dietary control of dental caries, 59
—— invalidism, 260
Diphtheria antitoxin estimations in blood of adult population of Bergen, Norway, after diphtheria epidemic, 175
—— in South Persia, 255
Disease, role of, in 70,000 casualties in American revolutionary army, 101
Duodenum, familial carcinoma of, in adolescence, 111
Dysostoses, enchondral, polytopic hereditary, 187
Dysostosis, mandibulo-facial, 54
Dysplasia, hereditary anhidrotic ectodermal, 186
——, renal, in family with multiple hereditary abnormalities, 243
Emotional states, naturally occurring and experimentally induced, reaction of human colon to, 250
—— ——, pleasurable, physical symptoms during, 249
Emotions and allergy, 103
Encephalitis, epidemic of, in Germany, in 1947-9, 255
England, introduction of inoculation for smallpox in, 261
*Epidemic, influenza-A, 1947, 59
Epilepsy, idiopathic, process of gestation and its effect on, 56
Erythema nodosum, age distribution of, 255
—— ——, outbreaks of, in paediatric institutions, 255
Eskimos, Canadian, poliomyelitis among, in wintertime, 100
Examination, medical, compulsory, before marriage in France, 244
Exercise, moderate, oxygen metabolism of, 250
Family service units for problem families, 104
Fatigue, ocular, 250
Fertility, effect of adoption on, 188
Filariasis, Bancroftian, in British Guiana, treatment of, with hetrazan, 257, 258
—— ——, on St. Croix, control of, with hetrazan, 258
—— ——, role of hetrazan in control of, 183
Flea problem in California, 183
Fluorides, effect of topical applications of, on dental caries in young adults, 259
Foetal and neonatal deaths, analysis of, in 4,117 consecutive births, 192
—— death in prolonged pregnancy, 107
Foetus, normal mature, face presentation in, 190
France, compulsory medical examination before marriage in, 244
Germany, encephalitis in, 255
——, hepatitis in U.S. troops in, 257
——, north-east, malaria epidemics in, 256
Gestation, process of, and its effect on idiopathic epilepsy, 56
Goitre, endemic, in Ireland, 258
Graves' disease, life situations, emotions and, 249
Greece, malaria control in, 1946-9, 184
——, night blindness and ocular changes from malnutrition in, 1941-5, 102
——, phlebotomus and residual DDT in, 53
Haemagglutinins, group-specific, behaviour of, in later stages of pregnancy, in puerperium and blood of newborn infant, 193
Haemorrhagic diatheses, familial, with prolonged bleeding time, 187
Health conditions in non-traditional housing, 181
Heart disease, congenital, children with, physical and mental development of, 108
Heat, acclimatization to, 180
—— stress, metabolic response of infants to, 181
Hepatitis in U.S. troops in Germany, 1946-50, epidemiological aspects of, 257
Hereditary abnormalities in a family, 243
—— anhidrotic ectodermal dysplasia, 186
—— enchondral dysostoses, polytopic, 187
—— factors in infantile progressive muscular atrophy, 54
—— nervous degenerations, 186
—— spastic paraplegia, 243, 244
Heredity, mongolism and, 106
Hermaphroditism, hormonal, 188
Heroin addict, newborn child of, withdrawal symptoms in, 252
Hetrazan in Bancroftian filariasis, 183, 257, 258
Housing, non-traditional, health conditions in, 181

Hydrocephalus, congenital, hereditary stenosis of aqueduct of Sylvius as cause of, 55
Hypertrichosis, 253
Hypnotizability of psychotic patients, 185
Immunity in malaria, stages in development of, 52
*Impotence, 262
Incompatibility, conjugal, of A-B-O blood groups, 186
Indonesia, reinfection of, with smallpox, 177
Infantile muscular atrophy, progressive, 193
—— —— —— ——, hereditary factors in, 54
Infant mortality from intestinal disease in relation to DDT and " Octa-Klor " spraying, 183
Infants, active immunization of, effect of inherited antibodies on, 187
——, incidence of infections in, in two maternity units, 51
——, metabolic response of, to heat stress, 181
——, newborn, group-specific haemagglutinins in, 193
——, ——, rickets in, 108
——, premature, blood sugar values in, 195
——, survival rate of, as index of quality of work of maternity home, 194
Infection, nutrition, relation of, to, in children, 59
——, pemphigus neonatorum in, 52
Infections in infants, incidence of, in two maternity units, 51
*Influenza-A epidemic, 1947, 59
Influenza, two outbreaks, 109
——, death rate from, recent changes in, 109
——, deaths from, statistical and laboratory investigation, 109
—— virus, A and B antibodies to, serum content of, in healthy and sick persons during 1948-9 epidemics, 175
Inoculation, smallpox, introduction of, in England, 261
Insecticides, *Anopheles gambiae* in Africa, 110
Insulin shock therapy, 247
Insulin-treated patients after five years, 178
Intestinal disease, infant mortality from, in relation to DDT and " Octa-Klor " spraying, 183
Invalidism, dietary, 260
Ireland, endemic goitre in, 258
Iso-immunization against Rh factor, 246
*—— by blood-group factors A and B in man, 59
Italy, phlebotomus and residual DDT in, 53
Keratitis, neuroparalytic, familial, 186
Labour, antispasmodic conduct of, 108
——, primigravidae, elderly, in, 189
Lactation, security of, and early yield of human milk, 191
Language disability, specific, 244
Leucotomy, prefrontal, 179
Lobotomy, transorbital, 179
Madras, nutritional dystrophy among children in, 181
Malaria, collective immunity to, development of, 52
*—— control in Belgian Congo, 262
—— control in Greece, 1946-9, 184
——, endemic, in south west Sicily, 257
——, epidemic, in north east Germany, 256
—— in Venezuela, campaign against, 52
—— problem in Australia, 256
Male subfertility, 105
Malformations, congenital, and maternal conditions during pregnancy, 106
Malnutrition, diseases of, and sequelae, in inmates of concentration camps, 58
Malnutrition, night blindness and ocular changes from, in Greece, 1941-5, 102
——, studies in, 182
Mandibulo-facial dysostosis, 54
Marfan's syndrome, 193
Marriage, compulsory medical examination before, in France, 244
Mastitis, neonatal, an unusual epidemic of, 245
Measles, ventilation in spread of, 256
*Medicine, advance of, in 1840s, 59
Menstruation, influence of thyrotoxicosis on, 105
Mental deficiency, role of Rh factor in, 246
Mentally subnormal and social medicine, 56
Merseyside, outbreak of paratyphoid on, 176
Metabolic response of infants to heat stress, 181
Milk, human, early yield of, and security of lactation, 191
Mongolism and heredity, 106
*Mononucleosis, infectious, in a New England College, 262
Mortality, neonatal, in Spain, 245
—— rates, premature, 191
Murder, prisoners charged with, clinical and electro-encephalographic studies of, 103
Muscular atrophy, infantile progressive, 54, 193
Neanderthal man, cranial injuries in, 261
*Negro, American, Rh factor in, 59
Neonatal mastitis, unusual epidemic of, 245
—— mortality in Spain, 244
Nerve-deaf patient, plight of, 180
Neurocirculatory asthenia, 247
Newborn, asphyxia and shock in, 107
——, rickets in, 108
Night blindness and ocular changes from malnutrition in Greece, 1941-5, 102
Norway, Bergen, adult population of, diphtheria antitoxin estimations in blood of, after diphtheria epidemic, 175
Nurses, tuberculosis in, 57, 254
Nutrition and infection, in children, 59
——, pellagra, in, 260
Nutritional dystrophy among children in Madras, 181
Ocular changes from malnutrition in Greece, 102
—— fatigue, 250
Ova, potentially abortive, recovered from fertile women prior to first missed menstrual period, 105
Ovulation and other ovarian crises, dating of, 188
Oxygen metabolism of moderate exercise, 250
——, paradoxical action of, 250
Papez theory of emotion, 248
Paraplegia, spastic, hereditary, 244
——, spastic, hereditary, with amyotrophy and pes cavus, 243
Paratyphoid fever, outbreak of, on Merseyside, 176
Paternity cases, upper limit of duration of pregnancy in, 190
Pellagra, season, nutrition and, 260
Pemphigus neonatorum, source of infection in, 52
Penicillin prophylaxis, mass, 53
" Pentothal " treatment of alcoholism, 250
Peptic ulcer in factory workers, 243
—— ——, susceptibility to; is it inherited ? 185
Perinatal deaths in Czechoslovakia, 106
Permeability, capillary, in pregnancy, 189

Persia, south, diphtheria in, 255
Pharmacology in ancient China, 261
Phlebotomus and residual DDT in Greece and Italy, 53
Phosphatase in pregnancy, 189
Plague of Athens, 176
Pneumonia, primary atypical, infectiousness and incubation period of, 109
Poliomyelitis in Canadian Eskimos in wintertime, 100
—— in Cornwall, 1949, 177
—— in South Australia, epidemiology of 1947-8 epidemic, 101
—— in Arctic, 100
——, increased incidence of, in higher age-groups, 101
*Polygamy, in 18th-century thought, 59
*Population, in 18th-century thought, 59
Prefrontal leucotomy, affective disorders arising from, 179
Pregnancy and labour experiences of elderly primigravidae, 189
—— —— tuberculosis, 103
——, duration of; post-war increase of medico-legal limits ? 190
—— ——, upper limit of, in paternity cases, 190
——, group-specific haemagglutinins in later stages of, 193
——, maternal conditions during, and congenital malformations, 106
—— permeability, capillary, in, 189
——, phosphatase in, 189
——, prolonged, foetal death in, 107
Premature infants, blood sugar values in, 195
—— ——, mortality rates of, 191
Primiparae, elderly, clinical experience with, 108
—— ——, pregnancy and labour experiences of, 189
Problem families, family service units for, 104
Proteins and calories, world consumption of, changes in, 259
Pseudohaemophilia, 187
Psychiatric indications for induced abortion, 244
—— instruction of medical house officers, methodology of, 195
Psychiatry as aid to medical treatment, 242
Psychoses, relation of, to vegetative disturbances, 248
Psychosomatic disease and " visceral brain ", 248
—— factors in functional amenorrhoea, 185
Psychotic patients, hypnotizability of, 185
Puerperium, group-specific haemagglutinins in, 193
Pulmonary lesions due to coccidioidomycosis, persistence of, 259
Pulse rate at high altitudes, 180
Quadriplegic patient, rehabilitation of, 177
Radiography, mass, management of suspects, 58
Rehabilitation of the quadriplegic patient, 177
Renal dysplasia in family with multiple hereditary abnormalities, 243
*Rh factor, American Negro in, 59
—— ——, iso-immunization against, 246
—— ——, its role in human disease, with particular reference to mental deficiency, 246
—— sensitization, neurological sequelae of, 246
Rickets in newborn infants, 108
St. Croix, American Virgin Islands, Bancroftian filariasis on, control of, with hetrazan, 258
Scotland, north east, Weil's disease in, 109
*Sexual development, precocious, 59
Shock in newborn, asphyxia and, 107
Sicily, endemic malaria in, 257
Sickle cell anaemia, inheritance of, 54
—— —— trait, genetics of, in Bantu tribe, 54
Sinusitis in children at home and in day-nurseries, 194
Sleeping sickness, control of, 53
Smallpox, inoculation for, introduction of, in England, 261
——, reinfection of Indonesia with, 177
Soldier's family, care of, 242
Spain, neonatal mortality, 245
Specific therapy, effect of, on common contagious diseases, 51
Spinal cord injuries, psychological aspects of the problems in, 247
Stenosis, hereditary, of aqueduct of Sylvius as cause of congenital hydrocephalus, 55
Sterility, female, 55
——, *x*-ray therapy in, 188
Stress, adaptive reaction to, 249
——, alterations in colonic functions in, 249
Subfertility, male, 105
Suicidal attempts, unsuccessful, 185
Sylvius, aqueduct of, hereditary stenosis of, as cause of congenital hydrocephalus, 55
Thiopental U.S.P. (" Pentothal ") treatment of alcoholism, 250
Thrombopathias, 187
Thymol turbidity in normal subjects, 183
Thyrotoxicosis, influence of, on menstruation, 105
Tobacco smoking, effects of, on oxygen metabolism of moderate exercise, 250
Tongue, cancer of, 56
Toxicity, comparative, of antihistaminic drugs, 111
Transorbital lobotomy, 179
Tuberculosis and pregnancy, 103
Tuberculosis control among American Indians, 254
——, B.C.G. vaccinated nurses, in, 254
——, coloured races, in, 58
——, Europe during and after second world war, in, 102
——, nurses, in, 57, 254
——, mass radiography suspects, management of, 58
Tuberculous endogenous reinfection, 254
Typhoid infection, ambulant cases of, significance of, in the origin of mass and group infection, 111
U.S. army, diabetes mellitus in, in World War II, 109
—— troops in Germany, hepatitis in, 1946-50, 257
Vegetative disturbances, relation of, to various psychoses, 248
Venezuela, malaria in, campaign against, 52
Ventilation in spread of measles and chickenpox, 256
Viruses, adventures among: Part III, puzzle of common cold, 175
" Visceral brain ", 248
Vitamin A, total carotenoids, and thymol turbidity levels in plasma of normal subjects, 183
—— C deficiency, incidence and degree of, in children and adolescents, 182
Weil's disease in north-east Scotland, 109
Werdnig-Hoffmann's disease, 54
X-ray therapy, value of, in amenorrhoea and sterility associated with endometrial hyperplasia, 188
